Annual Report

IFMBE Affiliated Society:

For the period July 2008 - June 2009

PREFACE

The International Federation for Medical and Biological Engineering (IFMBE) is regularly receiving reports from the affiliated societies. The form we have developed is aimed to help the Secretary General of the affiliated society in reminding him of the usual activities of societies and from the other hand, enables all those who read the report to get a better, structured overview of the activities of both, a particular society and of all societies.

Societies that had filled out the complete form in 2006, 2007 or 2008 should send this simple form for the activities between September 2008 and June 2009 and to indicate changes in any other data.

GENERAL ASSEMBLY DELEGATES

For the number of delegates, please see

Bylaw 12: Delegates to the General Assembly.

The number of delegates which may represent each Member Organisation at the General Assembly shall, to the nearest integer, be equal to the common logarithm of the number of individual members in that organisation, as follows:

<i>Number of Members</i>	<i>Number of Delegates</i>
<i>31 or less</i>	<i>1</i>
<i>32 to 316</i>	<i>2</i>
<i>317 to 3162</i>	<i>3</i>
<i>3163 and above</i>	<i>4</i>

In those countries in which there are more than one organisation, which are Members of the Federation, the total number of Delegates at the General Assembly would be based on the number of the total membership of all the organisations that are Members of the Federation. The distribution of the number of Delegates within this total number shall, to the nearest integer, be in direct proportion to the number of members of the individual organisations.

If an actual membership number cannot easily be determined, as for instance when the Member is a national liaison body of several societies, the Administrative Council may negotiate with the Member Organisation an agreed effective number of members for the purpose of arriving at dues and the number of Delegates to be appointed.

If there is more than 1 delegate of your society, please copy this table.

REPORT:

During the reported period the Society co-organized the 7th international conference “Measurement 2009” in Smolenice, on May 20-23, 2009 (<http://www.measurement.sk/M2009/>) and was involved in preparation of the forthcoming Czech-Slovak conference “Trends in Biomedical Engineering” in Bratislava in September 2009 (<http://kre.elf.stuba.sk/tbmi/>).

During the period elections took place, new administrative committee president, vice-president and secretary of the Society were elected.

On the society web page (<http://www.sbimi.sk>) is published information on ongoing society activities, events in the field and contacts and links to persons and professional societies. This page is also used to communicate expert views to discussed problems or prepared legislative norms in Slovakia.

Within the reported period, members of the Society were involved in graduate and postgraduate education in Biomedical engineering, Bioengineering, Bionics and Biomechanics that were organized in cooperation with Slovak Technical University in Bratislava, Technical University in Kosice, University of Zilina and Slovak Academy of Sciences.
